

Compliant to US Military specifications for command post lighting, these highly specialized lights provide the highest level of performance and efficiency. By utilizing high intensity low glare LEDs, high performance power supplies and light engines, A and A Logistics provides unparalleled lighting solutions for the harshest environments.

Features and Benefits

- Compact and lightweight
- Proprietary highly efficient light engines
- Proprietary optical designs maximize optical efficiency
- Auto-sensing input voltage
- Brighter than competitor's 30 inch light
- IP 66 rated for damp locations
- No IR/UV, emissions, No faraday cage required
- Light contains no mercury (environmentally friendly)
- Stringable up to 12 lights on 10 amp circuit
- Multiple hanging options
- Ridged Tslot
- Molded features in each end cap for tethered applications

Specifications	Details
Weight	1.03kg (2.26lbs)
Size	24"L x 2.75" dia
Cubic volume	0.08 cuft
Operating Temp Range	-55c to +55c
Input voltage	60-240VAC 24-48Vdc
MTBF	25,000 hours
EMI Shielding	Not required
UV/IR Shielding	Not required
Dimmable	3 levels
All Weather	IP66
